

# BirchStreet's Procure-to-Pay Platform

**Improving business processes using eProcurement, AP Automation, Inventory and Invoice Management, Pay, Recipe Management, and Executive Dashboards.**

## Empower your Business with BirchStreet

BirchStreet is the #1 end-to-end Procure-to-Pay Platform. Trusted by companies of all sizes. We help you increase profitability, streamline purchasing operations, automate invoice processes, and deliver real value to fuel new growth every day.

### eProcurement

Improves supply chain management by electronically connecting to contracted and “on the fly” suppliers

### AP 3-Way Auto-Match

This service provides real-time integration with your ERP/Accounting solution, with limited manual intervention, ensuring faster delivery of information and decision making.

### Invoice Management

Invoices become touchless with BirchStreet, which eliminates opportunities for data input errors, over and underpayments, inaccurate tax/freight computations and payments, and fewer lost or missing invoices.

### Inventory Management

Staff can take inventory on mobile apps with a barcode interface, create storeroom requisitions, fulfill requisitions, plan and replenish purchases and POs, transfer goods and connect to unlimited storeroom locations.

### BirchStreet Pay

Eliminate the hassle of writing checks, address concerns about rampant check or credit card fraud, and entrust the management of all your supplier payments to BirchStreet Pay – the smarter way to pay.

### Recipe Management

Allows for recipe creation, what-if analysis, nutrition calculation, allergen and intolerance reporting and the ability to publish and share recipes across locations.
